

"she told me"

©v.c.ilagan26.07.2009

I saw the warning signs
I did ignore my friend's advice
They asked sure you know what you are
doin'

She told me "I love you"
Every day 'so much' too
Her friends say 'you shouldn't believe
her'

She told me ...please don't believe them
no
What do they know anyway
But what can I know when she says
Lies and hides things from me
Why always, she told me lies ...always

Can't call her blind
She sees well
Dresses fine
Guys agree hell
I didn't mind
She openly flirts with them

She told me she
Fought with her friend
It's not the first
Time it's happened
She cries out why
Does it keep happening

She told me ...please don't believe them
no
What do they know anyway
But what can I know when she says
Lies and hides things from me
Why always, she told me lies ...always

She's quick to point her finger for the
blame
Chooses her next friend who does just
the same
Lends her some money for overdue bills
She thinks its funny spending it on pills
And the bar
If she keeps it up
You think she'll get far

She told me ...please don't believe them
no
What do they know anyway
But what can I know when she says
Lies and hides things from me
Why always, she told me lies ...always

So I had to fly said goodbye
I might come back, I will try
Or maybe she could come and visit me
She told me she'd wait for me
Concentrate on her degree
Her friends told me she
Left her son with her mother

She told me ...please don't believe them
no
What do they know anyway
But what can I know when she says
Lies and hides things from me
Why always, she told me lies ...always
